

Successful Placement Drive at Krishna Engineering College

Krishna Engineering College organized a successful placement drive in which Noida based software company Prixso Software Private Limited gave the opportunity to the students of 6th Semester Computer Science and Engineering branch. The company offered placement to six students and promised to engage them in live projects. The Placement started with a pre-placement talk by the CEO of the company, Mr. Sabyasachi Panigrahi, addressing the students and sharing his company's profile and the various projects that they have undertaken and compiled so far. He also advised the students to enhance their hands-on skills along with their core course curricula. The students were also briefed about the software that were in demand in the current market scenario. They were also made aware about the use of software skills in the Electrical, Mechanical and Civil Engineering fields. Shri Anand Kumar Tripathi, Chairman, Krishna Engineering College, extended a warm welcome to the members of the company and thanked them profusely for sharing their valuable insights with the students. Dr. P.K. Ghosh, Principal, Krishna Engineering College, mentioned the significance of the day as it marks the selection of six students.
